Re: DeNoble Testimony

Dear Buffy:

Enclosed please find a draft memo comparing DeNoble's April 28, 1994 congressional testimony with his September 16, 1988 deposition testimony. As you can see, we have identified a number of inconsistencies and grouped them by subject matter.

We recognize that the enclosed memo may be more detailed than necessary for the purposes of a congressional hearing. However, we thought it would be useful to have a memo documenting all of this information in the files. We would be happy to turn the memo into "talking points" or a question and answer format when the need arises.

After you have reviewed the enclosed draft, please call either one of us if you have any questions, comments or suggestions. We hope you find the memo useful.

Sincerely,

Susan Chertkof

Sonia P. Fois
